

# NATURAL INGREDIENTS

## PRODUCT LIST

*explore your senses* 

Natural ingredients are substances that are derived from plants, animals, or minerals and are used in the preparation of medicines.

They are often used as active ingredients in herbal supplements and other natural remedies.

Some examples of natural ingredients used in pharmacy include binders, diluents, sweeteners, colorants, preservatives, film formers, etc

**These ingredients are found abundantly in nature and are often used in their natural form or as derivatives.**

El equilibrio perfecto entre la  
Naturaleza y la Química

A&T
